Project Title: Miffy Epicenter Website

- Website brief: I'd like my site to be a center of all things miffy, informative about who miffy is and her origins but also (if possible) create a space where on just one site you can access various forms of miffy media (downloadable pngs, books, videos, shows, songs, shoppable links, etc.)

I'd like to build this site as multiple pages with one primary miffy page that draws you in and a tabs bar at the top with all the various pages. I want the site to feel very colorful and comforting like the miffy books and shows and to rely heavily on visual appeal (stylized buttons, tab bar, images, etc.) I'd like for it to have a sort of sticker book/ children's book feel to it.

- Home Page/Introduction – most visually appealing page to draw in, beginning with miffy (who is she) and where is she from (brief on the Netherlands)
- miffy sightings- cute and funny sort of page that has various places around the world you could meet miffy in person
- visual media (videos i.e. shows movies etc.)
- downloadables of miffy
- miffy books
- shoppable miffys
- songs
- miscellaneous
- Sources – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
